## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Allowable Subject Matter***

2. Claims 7-8 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

Regarding claim 7, the prior art fails to disclose or make obvious a defect inspection apparatus having a first control mechanism for controlling the beam deflection mechanism; a second control mechanism for controlling the beam expander; a first beam splitter for splitting the parallel beam in the light passage from beam expander to the objective lens into at least two split parallel beams; a second beam splitter for further dividing at least one of the split parallel

beams into at least two divided parallel beams; a beam profile observation camera for observing the beam intensity profile of the cross-section of a first of the divided parallel beams; a convergence lens for converging a second of the divided parallel beams; a beam spot positioning sensor for detecting the position of a spot image converged with the convergence lens; and an automatic control means for automatically controlling either or both of the first control mechanism and the second control mechanism on the basis of either or both of respective output signals from the beam profile observation camera, including information of the cross-sectional diameter of the beam, and from the beam spot positioning sensor, including information of the beam position displacement, and in combination with the other recited limitations of claim 7. Claim 8 is allowed by the virtue of dependency on the allowed claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
